

# JASON HENDRICKSON

jasonhendrickson@onebox.com      801.243.0116      1629 S. 1600 E. SLC, UT 84105

**OBJECTIVE**    Software release or installation project management.

**SKILLS**

- UNIX (HP-UX, Sun/Solaris, AIX)
- RDBMS/Oracle, MySQL
- SQLPlus
- Process definition, implementation, and evangelizing
- Problem solving and solutions bundling
- Technical writing

**SUMMARY**

- Completed successful software project management and application development engagements (development through on-site implementation phases) for Allstate Insurance, Royal Sun Alliance, and Cedars Sinai Health Systems.
- Consulted clients in the software, manufacturing, and pharmaceutical industries regarding business planning, process and procedure creation, and start-up equity funding.
- Led the largest department of an international rock climbing equipment manufacturer to a 130% profit increase through materials and manufacturing breakthroughs.

**EXPERIENCE**    **TenFold Corporation**      August 2000 to November 2002 - Draper, Utah / Beverly Hills, California

- Go-Live Project Manager, Cedars Sinai Health Systems (October 2001 – November 2002)
  - Directed successful on-site product implementation and full-scale production use;
  - Managed product release, testing, installation, and upgrade team (four employees);
  - Defined, documented, and evangelized application development and release processes;
- Applications Development Guru / Release and Installation Manager, Royal Sun Alliance (February 2001 – October 2001)
  - Defined and implemented software development and release process;
  - Provided technical support to application development teams (UNIX, RDBMS/Oracle, SQLPlus);
  - Defined progress milestones and deliverable schedule, drafted weekly work plans, published weekly status reports detailing milestone accomplishments and key deliverables to executive management;
- Release and Certification, Allstate Insurance (August 2000 – February 2001)
  - Delivered initial release of web-based insurance policy administration application on-time for Deerbrook Insurance Company (subsidiary of Allstate Insurance). Presently in use in 36 states;
  - Performed application regression testing and on-site installation, upgrade, and troubleshooting of TenFold's core technology, the Universal Application development platform;

**Pusher, Inc.**      December 1999 to June 2000 – Salt Lake City, Utah

- Director of Research/Development and Production*
- Researched and developed new resin-based artificial climbing hold formula that improved hold quality and texture;
  - Invented process that eliminated the primary cause of production down-time and quality problems;
  - Introduced new manufacturing process that increased production volume by over 100%, decreased payroll expenses by 30%, and decreased materials costs by over 30%. Resulted in improved product quality, increased order fulfillment speed, and wider profit margins.

**Hendrickson Lewis Holding Corporation**      January 1997 to November 1999 – Salt Lake City, Utah

- Founder and Principal Consultant*
- Provided consulting and facilitation services to new businesses interested in raising equity capital through private placement stock offerings;
  - Completed private placement offerings of up to \$1,000,000 each for clients in educational software, nutrition, pharmaceutical, manufacturing, and real estate industries;
  - Worked directly with customer's executive management teams to define equity needs, develop corporate equity structure, draft business plans and offering prospectuses, consult potential investors, and ensure local and federal securities compliance;

**EDUCATION**    **University of Utah**      August 1994 – June 1997 – Salt Lake City, Utah

- Bachelor of Science, Philosophy
- Interdisciplinary focus on Formal Logic and Deductive Reasoning;
